Authentication

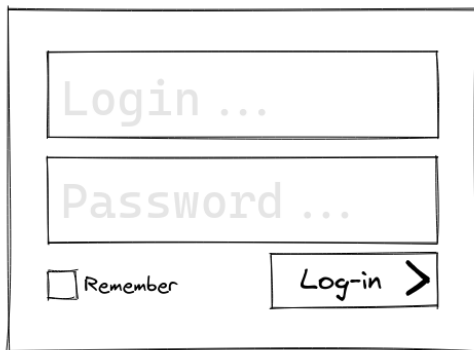

Authentication is the act of proving an assertion, such as the identity of a computer system user. In contrast with identification, the act of indicating a person or thing's identity, authentication is the process of verifying that identity.

A hand-drawn sketch of a login form. It consists of a large rectangular box containing two smaller rectangular input fields. The top field is labeled "Login ..." and the bottom field is labeled "Password ...". Below the password field, there is a checkbox followed by the text "Remember". To the right of the checkbox, there is a button labeled "Log-in" with a right-pointing arrow.

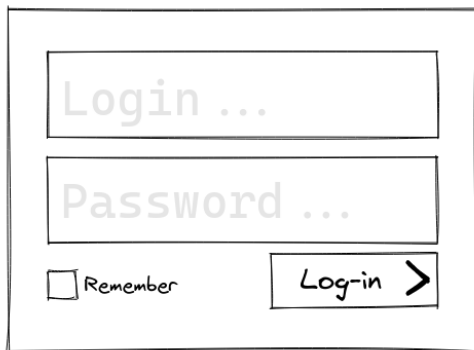

A hand-drawn diagram of a login form. It consists of a large rectangle containing two smaller rectangles for text input. The first rectangle is labeled "Login ..." and the second is labeled "Password ...". Below the password field, there is a checkbox followed by the text "Remember". To the right of the checkbox is a button labeled "Log-in" with a right-pointing arrow.
